

UplinkObject

```
classDiagram
    class UplinkObject
    class GatewayDef
    GatewayDef --|> UplinkObject
```

A UML class diagram showing an inheritance relationship. The 'UplinkObject' class is at the top, represented by a white rectangle with a black border. The 'GatewayDef' class is at the bottom, represented by a gray rectangle with a black border. A solid blue arrow points from the 'GatewayDef' class to the 'UplinkObject' class, indicating that 'GatewayDef' inherits from 'UplinkObject'.

GatewayDef
